

# CTN T&I SIG AGENDA

Tuesday July 16<sup>th</sup>, 2024

- Presentation by Matthew Aalsma, PhD

## **The Cross system collaboration to improve engagement in substance use services**

Improving substance use outcomes among people living with a substance use disorder necessitates a multi-pronged, cross system approach to improve referral patterns, engagement and retention in substance use services. Dr. Aalsma will present a cross system learning health system alliance within legal and community treatment to improve the substance use care cascade.

- Workgroup updates

- Implementation Strategies, Bryan Hartzler and Camille Cioffi
- Implementation Outcomes, Joe Glass and Sophia Gonzalez

- Next Meeting

- Tuesday, September 17<sup>th</sup> at 9:00am PT/Noon ET, presentation by Dr. Kelly A. Aschbrenner

For the past 20 years, Dr. Aalsma's research has focused on improving the health behavior of adolescents and young adults at risk for, or experiencing, behavioral health disorders with a focus on substance use disorders. Much of that work with vulnerable populations includes exploring how involvement in the behavioral healthcare system affects individual-level outcomes. He is the Johnathan & Jennifer Simmons Professor of

Pediatrics and Director of the Children's Health Services Research Division at the Indiana University School of Medicine
