

# Evidence-Informed Management of Co-occurring Addiction & Mental Illness in Adults & Adolescents

FREE  
CEU

**February 8, 2013 • 9am - 4pm**

Hosted by the Pacific Northwest Node of NIDA's National Drug Abuse Treatment Clinical Trials Network, this training will feature experts from the PNW Node and affiliated treatment programs. The format will include both lecture and interactive discussion of case studies. This training covers content presented in the June 2012 workshop held in Seattle, with additional focus on adolescents.

## Speakers:

**Richard K. Ries, MD**, University of Washington and Harborview Medical Center

**Matt Layton, MD, PhD**, Washington State University

**Ray Hsiao, MD**, University of Washington and Seattle Children's Hospital

**Who should attend?** Clinicians, supervisors, and administrators in chemical dependency treatment programs who would like to increase their skills and confidence in treating patients with co-occurring mental illness and substance use disorders. A limited number of travel awards are available for individuals traveling from rural and/or underrepresented areas in Eastern Washington or Northern Idaho. To apply, please contact Sharon Falk ([falk@wsu.edu](mailto:falk@wsu.edu))
